

# CLASSICAL MUSIC FOR CHILDREN FOUNDATION

Seattle, February 03, 2012

## **PRESS RELEASE FOR IMMEDIATE RELEASE**

The Classical Music for Children Foundation, a non-profit organization, announces the release of a new book, **"THE PYRAMIDS' MYSTERIES RESOLVED: SCIENTIFIC SOLUTIONS TO EARTH'S MAGNETIC FIELD AND CLIMATE CHANGE,"** written by Christian Bernard Magnongui.

What follows is the text of a letter sent by the author to various world leaders outlining the author's call to action. Copies of this letter have been sent, along with a copy of Mr. Magnongui's book, by mail and electronically to 23 Presidents, Chancellors and Prime Ministers via their official channels and embassies (see list below):

### **Open Letter**

Dear Presidents, Chancellors and Prime Ministers,

Thank you for receiving my newly published book entitled, The Pyramids' Mysteries Resolved: Scientific Solutions to Earth's Magnetic Field and Climate Change. The subject of climate change covered in the book is an urgent matter, and demands your immediate attention and consideration.

The information in this book is of critical importance to the well being of the earth at this time. When you read this book you will understand on a deeper level what is actually happening to our climate, and you will discover the key to technology for resolving serious climate change issues we are currently facing and will face in the near and far future.

To date, I have published this book and have sent free copies out to some key people (Newspaper editors, CEOs, Professors,...etc) using funds lent to me by friends and from sales of my two books. It is urgent that I keep getting copies of this book into the hands of people around the world who can help with the climate change discoveries contained in it.

My goal is also to travel with a team to Egypt and other countries where pyramids are to continue<sup>2</sup> to deepen our understanding of the connection between pyramids and climate change, and help science find the missing information they need to resolve this critical issue.

To do this work I see that two things must be done:

1. Establish an international consortium of scientists to assist in the work.
2. Obtain funds so that my team and I can continue to send copies of the book to key people, including traveling to pyramids to learn more and begin to study the process of incorporating the pyramids' scientific purpose.

To date, alone I have donated my time and financial resources to bring these discoveries to the public, but that is not enough. I know that there is a lot more that needs to be done to bring my research to the right people and bring them together as a united team for the purpose of helping resolve the climate change issues through the scientific operation of the pyramids. I need your help in this important cause.

If you decide to support this important work, you will have a voice in how the resources are to be used. An international consortium or oversight committee will be formed for this purpose. The importance of spreading this information dictates the need to go worldwide to bring scientists together to work on this project.

Currently I have an established foundation called the "Classical Music for Children Foundation." My plan is to make the pyramid project a branch of that foundation for three reasons:

1. It will allow immediate action versus taking time and money to establish a new foundation.
2. It would be more economical to have it be a subsidiary of the Classical Music For Children Foundation.
3. It will be important to the future of children of the world to resolve the climate issue as soon as we are able to.

It is critically important to establish a consortium of international scientists and receive sponsorships and funds in order to continue this mission. Donations, as well as suggestions and support can be sent to:

**The Pyramids: Scientific Solutions to Earth's Magnetic Field & Climate Change.**

**PO BOX: 1240**

**Seattle, Washington 98111-1240**

**U.S.A**

Toll Free / EFax: 1-866-438-1244

[www.ClassicalMusicForChildren.Org](http://www.ClassicalMusicForChildren.Org)

I can be contacted by email, phone, or mail with invitations by serious and responsible democratically elected governments, individuals, businesses or organizations to discuss this request.

To those who participate with donations of time, research and money, an accounting of all funds received will be made on a regular basis, and may be tax deductible. In addition, the consortium will also need office space, equipment, and technological expertise. Everyone who contributes will be kept informed of pertinent findings from the research.

I appreciate your understanding and I believe that once this project is given the consideration it deserves and has started to produce results, it will be a blessing to our earth and to future generations of our children. That is the goal of The Pyramids' Mysteries Resolved: Scientific Solutions to Earth's Magnetic Field and Climate Change.

(END OF LETTER)

A complimentary copy of Mr. Magnongui's book is enclosed for your review. Mr. Magnongui can be contacted as follows:
